**BOMA California was created in the 1980's when representatives from several metropolitan BOMA's found themselves in Sacramento at the same time, testifying on the same legislative issues affecting the commercial real estate industry. In an effort to have the industry speak with one unified voice, in a cost efficient manner and with greater authority, the leaders of several of the local associations decided to create BOMA California.**

**To date, BOMA California has been effective on a wide variety of issues including forced access by telecommunications companies, energy deregulation, split roll property taxes, mandatory statewide fire sprinkler retrofit requirements, toxic mold liability, enhanced disabled access requirements, plus much more. Come hear what is being discussed in Sacramento, and how it will impact the Inland Empire.**
